PROFFESIONAL SUMMARY

I am a Front-End Developer with professional certification in Full-Stack Engineering from Codecademy, though my primary focus is on front-end development. I have built a comprehensive portfolio, which you can view below.

In addition to my technical skills, I have experience in research, content creation, and budget management. Currently, I serve as the treasurer of the University of Nairobi Anthropology and Gender Students Association (UNAGSA). Through this role and my professional experiences, I have demonstrated a strong ability to collaborate with diverse teams, achieve impactful results, and conduct thorough research while maintaining data accuracy.

KEY PROJECTS

PRODUCT LIST CART

Front-End App

A dynamic product listing featuring a functional shopping cart, allowing users to add, remove, and adjust item quantities. Built with React, Tailwind CSS, Framer Motion, and other libraries.

GitHub Repository: <https://github.com/nzyokam/desserts>

Live URL: <https://productlistcartfrontendmentor.netlify.app/>

CONFERENCE TICKET GENERATOR

Front-End App

An interactive form that generates personalised conference tickets upon submission, featuring form validation and dynamic ticket rendering. Developed using React, Tailwind CSS, Framer Motion, and other libraries.

GitHub Repository: <https://github.com/nzyokam/CodingConferenceTicketGenerator>

Live URL: <https://codingconferencegenerator.netlify.app/>

SPACE TOURISM

Front-End App

A visually captivating website that takes users on a journey through space exploration.

Features dedicated sections highlighting planets, space travel experiences, and futuristic missions.

GitHub Repository: <https://github.com/nzyokam/spacetourism.git>

Live URL: <https://touringspace.netlify.app/>

CONTACT FORM

Front-End App

A responsive and accessible contact form with real-time validation and success messages, ensuring a seamless user experience. Crafted with React, Tailwind CSS, Framer Motion, and other libraries.

GitHub Repository: <https://github.com/nzyokam/contactformnosubmit>

Live URL: <https://contactformnosubmit.netlify.app/>

UNAGSA WEBSITE

Front-End App

University of Nairobi

I am currently a student of Anthropology at the University of Nairobi I am currently designing, developing and maintaining a website for my school club, The University of Nairobi Anthropology and Gender Students Association (UNAGSA). This is a React Application which utilises tailwind css, GreenStock Animation Platform(GSAP) among other utilities to ensure the website looks and works best.

Yet to be presented to the school, but you can check it out here:

Live URL: <https://unagsa.netlify.app>

Animated Apple iPhone 3D Website

Front-End App

Developed a clone of Apple's iPhone 15 Pro website using React.js and TailwindCSS, showcasing smooth GSAP animations and dynamic 3D model rendering with Three.js. The project features a responsive design, a custom video carousel and emphasises clean code architecture and reusability that even connects to the actual apple website incase you want to do some real shopping.

SKILLS

Frontend: React.js, JavaScript, TypeScript, JavaScript, CSS (Tailwind CSS)

Database: SQL, PostgreSQL

Tools & Technologies: Git, GitHub, GSAP, Three.js, Sentry, Framer Motion

EDUCATION

Bachelor of Arts: Anthropology

September 2025 (Expected)

University of Nairobi - Nairobi

Currently pursuing a Bachelor of Arts degree in Anthropology, sharpening research skills and cultural insights giving me a strong passion for cultural diversity and a deep understanding of cultural dynamics.

Front-End Engineering

July 2024

Codecademy

Engaging in a comprehensive Full Stack Engineering course, developing proficiency in HTML, CSS, git, node.js and JavaScript. Practice in building and web apps which provided me with more than enough skills for application in the real world.

Diplôme d'études en langue française (B1)

May 2023

Alliance Française de Nairobi

I have just completed A1 French course at Alliance Française and I am continuing with my French studies

Certificate of Completion

The Fundamentals of Digital Marketing

April 2022

Google Digital Workshop

Successfully completed Google's Online Classes and Certification Exam on The Fundamentals of Digital Marketing, enhancing digital literacy.

Communication and Life Skills Programme

July 2021

Strathmore University - Nairobi

Completed a short course offered by Strathmore University's School of Humanities and Social Sciences, refining communication skills.

Kenya Certificate of Secondary Education (KCSE)

April 2021

Mumbuni Boys' High School - Machakos

I completed my high school education and attained a B- in the Kenya Secondary Education Examinations.
